

Fire-Rated Crownline Cabinets Provide A Wide Selection of Door Styles, Glazing and Sizes. These Durable Cabinets are Designed to Industry Standards for Fire Department Valves, Fire Hose Rack Units and Extinguishers. The Trimless Version is Designed to be Installed Under the Drywall, for a Flush Finished Surface.

Door: Clear anodized aluminum. 1-3/4" Trim on door. These flush cabinet doors are mounted in a 5/8" stop, attached by a continuous hinge and are equipped with zinc-plated handle and roller catch for all non-locking doors. Theft-deterrent SAF-T-LOK™ also available. Trim on models with glazing is 1-1/2".

Flange Style & Depth: Trimless Recessed for 5/8" depth drywall or 3/4" depth plaster. First layer of drywall is to be installed before cabinet, second layer over flange after cabinet is installed. All trimless models meet the ADA projection requirement.

Tub: The tub is constructed of cold rolled steel with white powder-coat finish standard. Tub forms a flange which is installed before drywall or plaster material. Fire-resistant material is attached to the exterior of the tub. **Knockouts:** Knockouts are not provided on Fire-Rated Cabinets. Instructions for Knockouts in the field are provided, and must be strictly adhered to, to maintain fire rating.

Special Features: Models 8024 has a shelf 12" from the bottom of the cabinet and is designed to hold a fire extinguisher plus FD valve or other accessory. Those models can also be ordered without shelf to allow for lower mounting height of valve piping to meet NFPA14.

Recessed Flange for Installation Under Drywall or Plaster

Fire Rating: Fire-FX2™ cabinets are UL listed and labeled as an approved membrane penetration firestop system for up to 2 hours in accordance with UL 1479 (ASTM-E814) and CAN/ULC-S115, when properly installed in a wall assembly according to installation instructions.

ADA Cabinet Mounting Height: Standard Pull on G, E, W, L22, A and B Door Styles with Saf-T-Lok are 3 5/8" Higher than Door Center, so Allow for that When Mounting Cabinet. Standard Pull with No Lock or ADA Recessed Pull are Centered on Door.

STEP 1: SELECT MODEL NUMBER & QUANTITY (Refer to Chart on Page 2)

STEP 2: SELECT DOOR STYLE

(Check one box below)
